

OLD Alpha (a) BLEND POTENTIOMETER WIRING

yellow (like brass or gold), slightly iridescent, non-solderable plating
MN tapers (both pickups full on at center detent)
wiring is the same for 25 K-ohm and 250 K-ohm pots.

Blend pot wiring viewed from the inside of the control cavity (pot. shaft down)

DO NOT SOLDER GROUND WIRES OR ANYTHING ELSE TO THE SIDE OF THESE BLEND POTS
